Re: Docket No. 99D-5347

**"Precautionary Measures to Reduce the Possible Risk of Transmission of Zoonoses by Blood and Blood Products from Xenotransplantation Product Recipients and Their Close Contacts"**

To Whom It May Concern:

When dealing with infectious diseases, a public policy based on containment is unacceptable. If the FDA truly wants to protect the blood supply and the public health, it would embrace prevention and ban xenotransplantation immediately.

Respectfully submitted,  
Scott Plantier, Terry and Sophie Carlo  
23 Clinton Avenue  
Pittsfield, MA 01201
